

4 May 2017

Dear Parent/Carers,

### LANGUAGE PERFECT FOR YEARS 3 - 6

We would like to introduce families to the **Language Perfect** online French language resource and tool for students in years 3 - 6. Language Perfect is an optional additional resource available to families who wish to extend and enrich their knowledge of the French language beyond what is taught in school.

**Language Perfect** has been successfully implemented in hundreds of schools and homes from around the world, with notable impacts on student motivation, grades, and on the number of students who continue with their language learning. Global, state and inter-class competitions run through the year, which encourage students to continue learning a second language. Language Perfect enables students to focus on French language structures and vocabulary learning at home. This means we can spend more time in class applying this vocabulary in context.

Students gain points for every word or language pattern they learn and they can compete against their friends in a fun, educational and safe environment at their own pace.

#### Key features:

- **Native speaker pronunciation:** recorded for vocab, verbs & exam passages
- **Multiple testing modes:** improves reading, listening and writing skills
- **Instant feedback on progress:** explanations for complex questions, live scoreboards and points totals, shout-out function and competitions within a global community of learners
- **Access from anywhere:** at school, at home or on holiday on any device with an internet connection

If you would like to subscribe your child/children to **Language Perfect** for French language resources you can visit the website: <https://www.languageperfect.com>. Once your payment has been processed, your child will receive login details which they will be able to use as many times as they wish for the year!

Please note that Language Perfect is currently offering a free 4 week trial period. Following this period, the free trial families then have the options to pursue ongoing individual subscriptions.

We hope your child enjoys this excellent language resource.

Kind Regards

**Frances Szeremet**  
French Teacher
