Please assist with the trial by logging your child on to the google meet at the scheduled time (if possible).

Additionally, each year level will upload several lessons for week 10, including some which have been prepared by specialist teachers e.g. in the arts and languages. These can be used flexibly to suit family timetables and internet connections.

The trial is an opportunity to test our online lesson delivery and troubleshoot any issues that arise in preparation for term two. Please email us if you experience technical difficulties outside of internet service provision and we will do our best to assist.

Kind regards, The Red Hill Team
